Arjun Rao

ENTRY-LEVEL DATA ANALYST

Seattle, WA | +1 (202) 555-0182 | arjun.rao.sample@example.com
linkedin.com/in/arjun-rao-sample | github.com/arjunrao-sample

PROFESSIONAL SUMMARY

Data analyst with academic and internship experience translating operational data into clear reporting. Uses SQL, Python, and dashboard tools to investigate trends, validate data quality, and communicate findings to non-technical partners.

SKILLS

SQL, Python, pandas, Excel, Power BI, Tableau, data cleaning, exploratory analysis, statistics, data visualization, stakeholder communication

EXPERIENCE

Business Intelligence Intern | Cedar Analytics (fictional) | Seattle, WA

Jan 2025 - Jun 2025

- Queried 120,000+ sample sales and support records using SQL to identify weekly volume and retention patterns.
- Automated recurring spreadsheet cleanup with Python, reducing a simulated weekly reporting task from 3 hours to 45 minutes.
- Built a Power BI dashboard with 8 measures and presented findings to a 6-person operations group.

SELECTED PROJECTS

Customer Churn Exploration | Python, pandas, scikit-learn

Cleaned a public sample dataset, compared churn rates by plan and tenure, and summarized limitations alongside findings.

Retail Performance Dashboard | SQL, Power BI

Created a dimensional model and visualized revenue, returns, and product mix by month and region.

EDUCATION

B.S. Information Systems | Rainier State University (fictional), Seattle, WA | Jun 2025 | GPA: 3.7/4.0

CERTIFICATIONS

Microsoft Power BI Data Analyst Associate (sample credential) | Google Data Analytics Certificate (sample credential)
